

The background is a deep blue, ethereal scene. In the upper left, there are faint, glowing star-like lights. A large, vibrant rainbow arches across the middle of the frame. Below the rainbow, two angels are visible; one is standing and looking upwards, while the other is partially obscured below. The overall atmosphere is magical and serene.

The way from dream to goal

“You have to dream before your dream can come true”.

A.P. J. Abdul Kalam

Winter is a month of lights, snow and feasts. It's a wonderful time, which gives us a chance. Usually in this month we finish what we have started, summing up the past year. After that we continue our way to a dream, hoping that our dreams will come true.

December is the time of dream, create our dreams and prepare plans for the future. Dream... Let's dream... Let's dream together. Let's dream together under the stars. Let's meet in our dreams tonight. December is the darkest time of the year. The duration of the night time reaches its maximum, and we celebrate the winter solstice. But after it gradually begins to increase daylight hours. Every day daylight increases, the forces of good and light triumph over the dark time of the day. Our goal to overcome a lazy and make daily steps during this period, which will lead us to the goal. Need to do step every day and you will be success. January is time to realise our goals. Let our goal will be achieved and winter months help us in it. Do everything necessary for this in January! Let January realises the goal! Usually, this month we feel full of energy. We must use this time and do not miss a chance. If we work hard during the three winter months, make sure you achieve this goal, and in February our wishes will come true.

Christmas is a special time... Let the decorations create a magical Christmas spirit in your heart... Create your magic Christmas story! It could be merry, shimmery, and bright! When in doubt add more glitter to this holiday season.

Secret 1

Let's dream!

When day meets night, magic rises into the air. Sounds disappear on the horizon and the ocean becomes clear. Stars are getting ready for your wishes to be come. Be quiet for them to hear and visualise them.

Look up the sky. Do you have a dream? Let's dream for a while. Our dreams will be creating a world in which we live. So you need to dream more often.

Please, find 15—20 minutes of free time. Make it so nobody will disturb you. Relax completely and get in touch with your subconscious. Try to think about nothing at this moment.

Position yourself comfortably, close your eyes and take three deep breaths. With each breath, feel yourself becoming more and more relaxed. Resume your normal relaxed breathing. And as you breath, maintain a constant flow of breath. A constant wave motion of your breath. Each breath flowing into the next without pause. Draw the divine golden light in your mind and release your empty breath. Maintain a constant flow of breath, without pause in between, wave after wave. Continue to do this.

Make our mind calm. If our mind is peaceful, we will be free from worries. Usually we find it difficult to control our mind. Give your thoughts full freedom. Keep your eye on those pictures that draw you. At the end do not forget to write down all that you see.

Secret 2

Believe in your dream!

Dare to dream! Let's dream big! Say it out loud. Believe it. Let the dream will come truth. If you have a dream, keep it tightly in his hands. So hard, that she would become your destiny. And remember, nether stop dreaming. Make the dream. Live your dream. Whenever you have a dream inside your heart.

For your dream to come true, you will have to believe in this possibility. We all experience amazing events in our lives, as a child we may have a wish that we hope will come true, and maybe after many years of waiting, we give up on this wish believing it will never happen, only to find it materializing in some capacity many years later. The wish or dream may have appeared in a slightly different form to what we may have imagined, but we can still recognize it as our long held dream, which as now come true.

Never let it go, because dreams are the ting seed from which beautiful tomorrow grows.

Secret 3

Keep an open mind!

Why do our dreams come true? And when they do come true, why do they happen faster for some people, than for others? Maybe it is to do with belief, some people believe in god, and they get great strength from their faith, while other people have belief in themselves, they have the confidence that they will achieve their dream. Not everyone possesses belief or confidence, and if we feel we lack either of these traits, we can take steps to work to improve our personal attitude and aim to improve our inner belief that will help us to achieve our dream.

The men, who for a long time engaged in cleansing his body and especially the purification of his own thoughts, operate at high frequency, and can quickly achieve the desired result. They tend to think not only about their own welfare, and pray for the happiness of all people on earth, knowing that if everyone will be happy, then they will be happy too. Living in harmony with the universe, a person attains the highest bliss when all his requests quickly implemented.
