#### OT ABTOPOB

Предлагаемое вашему вниманию **издание 2009 года** — **новая переработанная версия учебного пособия English Grammar: Reference and Practice**. Наше пособие было создано на основе классических работ по грамматике английского языка, изданных в России, а также учебников британских и американских авторов — приверженцев коммуникативного подхода в обучении языку. Однако многолетний опыт работы в аудитории подсказал ряд изменений и дополнений, которые, не нарушая структуру пособия, значительно повышают его эффективность.

Прежде всего учебное пособие дополнено новыми коммуникативными упражнениями, которые предполагают создание и применение грамматической модели в соответствующих речевых ситуациях. Чтобы обеспечить психологическую комфортность процесса обучения, сокращены длинные, тяжеловесные упражнения. Ряд упражнений снабжен иллюстрациями, что также делает его user friendly.

**Уточнены и расширены некоторые теоретические главы пособия.** Новое издание включает **16 тематических разделов**, в которых приводятся общие сведения по каждой теме и объясняются особые случаи употребления грамматических моделей. Цель данного учебного пособия – изложить в доступной форме основные особенности грамматического строя английского языка, необходимые для практического использования.

В основе структуры пособия лежат два принципа: сопоставление грамматических моделей русского и английского языков и дифференциация сходных (для носителей русского языка), но различающихся по сути, грамматических структур английского языка. Лучшему усвоению материала должны способствовать таблицы, схемы и модели, систематизирующие материал разделов.

Данное издание предназначено для учащихся школ и гимназий, а также для студентов неязыковых вузов с углубленным изучением английского языка. Оно может быть успешно использовано для работы со студентами любой формы обучения и уровня языковой подготовки, поскольку подробные объяснения снабжены большим количеством примеров, таблиц и моделей, закрепляемых в разнообразных упражнениях. К большинству упражнений прилагаются ответыключи, изданные отдельной книгой The Keys. Благодаря этому наше учебное пособие также подходит для самостоятельной работы.

В новой редакции пособия **свыше 800 упражнений**, большинство из них выполнено **в виде «рабочей тетради»**. Упражнения располагаются по принципу нарастания языковых трудностей и предназначены для студентов начинающих (A), продолжающих (B) и продвинутых (C) групп.

В течение 15 лет материал пособия успешно использовался в различных целевых программах, при обучении студентов с разным уровнем языковой подготовки.

#### 2. "There + be" Construction

**I.** We use the *there* + *be* construction when talking about the existence or presence of people, things, etc. in a particular place. This construction has the meaning *«ectb»*, *«имеется»*, *«находится»*, *«существует»*. The verb *to be* in this construction can be used in different tense forms:

there is/are there was/were there will be there has/have been there had been

J	There are many	French	n book	(S i	n this	libr	ary	
_		_	_	-	-			

- ☐ There was a meeting at the club yesterday.
- ☐ There will be a good crop in this region this year.
- ☐ There hasn't been any rain for some days.

#### Word Order

there + be + subject + adverbial modifier of place adverbial modifier of time

The corresponding Russian sentences begin with adverbial modifiers.

Russian	English
<u>В моей комнате</u> есть (имеется) телефон.	There is a telephone in my room.
<u>В саду</u> (имеется) много яблонь.	There are many apple-trees in the garden.
<u>Вчера в институте</u> было собрание.	There was a meeting at the Institute yesterday.

The verb to be in this construction can be used with modal verbs (can, may, must, ought to):

- ☐ There must be a dictionary on the shelf.
- ☐ There can be no doubt about it.
- ☐ There ought to be more books on the subject in our library.

We can also use some other verbs after there - to live, to exist, to stand, to lie, etc.:

- ☐ There lived an old doctor in the village.
- ☐ There exist different opinions on this problem.

If the subjects are of different number, the predicate agrees with the subject that stands first:

- There is **a table** and six chairs in the room.
- ☐ There were **some books** and a dictionary on the table.
- **II.** We can also use this construction when it does not refer to a place:
  - a) there + be is used to introduce new information:
    - There will be a party tonight.There have been two telephone calls for you.
- b) to talk about a number or amount:
  - ☐ There are forty of us, I think.
  - ☐ **There was** a great deal of anger about the decision.

#### Interrogative and Negative Forms

- ☐ **Is there** a telephone in your room?
  - No, there isn't.
    - No, **there is no** telephone in my room.
- ☐ Was there a meeting at the Institute?
  - No, there wasn't.
- ☐ Will there be many people there?
  - No, there won't.
    - No, there won't be any people there.

Mind that the sentences: "There is a book on the table". («На столе книга».) and "The book is on the table". («Книга на столе».) have a different meaning. The first one shows that there is something ("a book") in that place, the second one shows that the object ("the book") we now are speaking about or looking for is in that place ("on the table").

#### It and There as Impersonal Subjects

In many kinds of English sentences we use the word *it* or the word *there* in the subject position. These are usually "impersonal" sentences – sentences where there is no natural subject.

Impersonal *there* is used, as it was shown above, to say that something exists in a particular place, to introduce new information, etc.

#### Impersonal it is used:

<ul><li>when talking about the <u>weather</u>:</li></ul>	It was a nice day yesterday. It's raining hard.
- in expressions of time, day and distance:	It is nearly one o'clock. It was late when we arrived. It's the sixth of April. It's far from here to the nearest town.
<ul><li>when <u>identifying</u> something:</li></ul>	Who is it? – It's me. What is it? – It's a book.
- in <u>expressions</u> , such as:	 It's a pity It was a shame It's important to
<ul> <li>to express <u>opinions</u> about places, events, situations:</li> </ul>	 It was fun working with him. It was a pleasure to be there. It's strange we haven't noticed it.
