HIS SINCERE REGARD.

P R E F A C E

TO

THE SECOND EDITION.

THE Author has spared no pains in his endeavours to render the second edition of this work more worthy of public approbation than the first. By curtailing many superfluities, both in matter and style, he has obtained space to insert a great quantity of additional information, from his own journals, as well as from classical and modern authors. Moreover, by enlarging the second volume, he has been enabled to lay before the reader a complete narrative of the Life and

Death of that extraordinary personage Ali Pasha of Ioannina, together with a concise account of the Revolution, in which he bore a distinguished part, and which has given independence to Greece. An Appendix had been prepared, containing matter very different from that which will now be found there: the change is owing to the advice of a judicious friend, who thought that the knowledge of some routes in Greece and Albania would be useful to any traveller in those countries who might consult this work previously to his departure from England.

JUNE, 1830.
